

InterAcct – Screen Colour Controls

Colour is often a matter of personal preference. With the latest version of InterAcct Software you can control each area of the screen display in terms of the background and foreground colours.

The screenshot shows the 'InterAcct Master - [USER TEMPLATE COLOURS - display]' window. It features a menu bar (File, Record, Edit, View, Go, Advanced, Menu, Graph, Design, Help) and a toolbar with various icons. The main area is divided into several sections:

- Colour Template:** A dropdown menu set to 'STRAW'.
- Global:** A table with columns for 'Background' and 'Text' for various UI elements.

	Background	Text
Buttons Active	D3B691	000000
Buttons Inactive	D3B691	000000
Action Heading	CD4789	FFFFFF
Database Activity	FFFFFF	00FF00
Button Help Box	FAF0DC	000000
Activity Box	FFFD6	000000
Help Text Box	FFFD6	910000
Tab Menu	FFFD6	000000
- Record/Search:** A table with columns for 'Background' and 'Text' for different record types.

	Background	Text
Screen	F6E3AA	000000
Headings		0A0AC8
Input Fields	FFFE5	000000
Non Input Field	F2FFE8	000000
Selected Field	FFC0C0	000000
Menu List	FFFD6	000000
Menu Heading	B42672	FFFFFF
- List Screen:** A table with columns for 'Background' and 'Text' for list-related elements.

	Background	Text
Non ID Field	FAF0DC	000000
ID Field	D8FFFA	000000
Headings	C8FFC8	000000
Highlighted	FFC0C0	000000
List Totals	FFE6C8	0A0AC8
- Icon Template:** A dropdown menu set to 'REALVISTA_STRAW'.
- Form help / Field help:** A section with two tabs and a large empty text area.

The 'ClearView Color Settings' dialog box is open, showing a 'Colour Selector' with a monitor icon. It includes sliders for 'Text2' (Red: 246, Green: 227, Blue: 170) and a color palette. The selected color is 'F6E3AA'. Buttons for 'Ok' and 'Cancel' are at the bottom.

As you would expect, the choice of colours has already been made in the standard system, and allows different areas of the system to be shaded differently to identify what area of InterAcct you are in (such as Clients/Prospects – Sales & Marketing, or Accounting, Job Costing, Estimating, Quotations, Service, Manufacturing, Import Shipment Costing, etc).

Each InterAcct User can also have a default colour scheme to suit themselves.
