

Export Sales for InterAcct Software

InterAcct have just announced yet another export order for their integrated business and accounting package (InterAcct).

The new installation is in Beijing, China with an Australian Public Listed Company involved in Oil Exploration and Production as a Joint Venture with a Chinese Corporation.

InterAcct software modules selected include –

- Job Costing,
- Service/Maintenance
- Kit Conversion Costing
- Import Shipment Costing,
- Serial Number Stock Control
- Multiple Warehouse and Bin Locations

One special requirement was to have the ability to print some reports (eg. Purchase Orders) using the **Chinese character** set.

The implementation and training process is expected to be completed within a three month period.
